# THE SUMMIT PROGRAM

Welcome to the Corporate Health and Wellbeing Summit, the essential one-day conference program that gives you the tools to boost the health and wellbeing of your people, and the bottom line of your company. If you are dedicated to creating a thriving organisation, this is an event not to be missed.

## 8.30 Registration And Welcome Coffee

## 9.00 Official Welcome And Opening Remarks

### 9.10 INSPIRATIONAL KEYNOTE ADDRESS: BEFORE YOU HELP OTHERS, YOU MUST FIRST HELP YOURSELF

**Jase Te Patu**, TedX speaker, award-winning wellbeing and mental health advocate

Jase Te Patu is on a mission to positively influence the wellbeing and mental health of New Zealand's workplaces, schools and communities – with his students including the All Blacks and the Hurricanes, and many more high profile companies and high performance athletes.

When we are feeling strong, this strength feeds into our relationships, interactions and workplace culture. The paradigm that taking care of ourselves first is selfish is changing, and we can embrace this in ourselves and our workplaces.

Now more than ever, and especially in the light of the COVID-19 pandemic, taking care of our own wellbeing is a must! In this session, Jase will break down the Maori model of Hauora – Te Whare Tapa Wha, to help individuals, teams and workplaces thrive from taking care of their holistic wellbeing. You can expect to come away armed with the tools to create a self-care plan, implementable immediately – to strengthen your physical, mental, emotional and social wellness – to take care of yourself, and in turn, others.

### 10.00 BURNOUT - THROUGH THE LENS OF LEADERSHIP

**Suzi McAlpine**, Leadership expert and author

We often don't talk about the journey to burnout, or see the signs, until it's too late – and we're looking in the rear vision mirror. What if we could change the trajectory of this journey and rather than burnout, we flourish?

The World Health Organisation has just last year upgraded the classification of burnout to an occupational syndrome, which is a big deal. Not only is burnout affecting employees' health, it's also costing us billions globally in lost productivity, absenteeism, turnover and low engagement in organisations, as well as spiralling healthcare costs.

In this eye opening session, Suzi will share her insights and groundbreaking NZ and Australian research to look at burnout through a leadership lens to share

- Practical learnings around how leaders and

organisations can recognise and address burnout in their workplaces

- How to create environments and cultures that reduce it
- How to interrupt the burnout cycle, and create the space to thrive

## 10.45 Morning Coffee Break

### 11.15 FINANCIAL WELLBEING – WHY FINANCIAL LITERACY IS NOT THE ANSWER TO OUR MONEY WOES

**Hannah McQueen**, Financial strategist, author, founder of enable.me – financial strategy and coaching

Any organisation serious about high performance must ensure its people are willing and able to contribute ideas, challenge the status quo, and try new things without fear of failure.

We ask our people to show up and deliver the best version of themselves – but, too often, organisations don't create a culture that makes that possible. So where do we go wrong and what do we do about it? In this engaging and practical presentation, Simon will explore:

- How our human need for connection underpins our emotional and mental wellbeing in the workplace
- Why traditional workplace cultures are driving poor engagement
- Simple and powerful ways in which leaders can create permission for people to play

### 12.00 EXPERIENCES FROM THE FRONT LINE – A PANEL DISCUSSION WITH PASSIONATE WELLBEING WARRIORS

**Phillippa Powell**, OD Advisor with Chorus

**Helana Taylor**, OD Manager with the Ministry of Justice

**Tamara Buckland**, Head of People Experience with Sharesies

#### Mental health focus

It's undeniable that there has been growth in mental health issues and stress related illness in New Zealand workplaces, and we are indeed dealing with more uncertainty than ever before.

Mental health support and the need for promoting positive mental wellbeing has never been more crucial. Our panel will discuss how they are addressing mental wellbeing in their workplaces, and also how they approach sensitive topics that have historically been taboo.

## 12.30 Lunch Break

## 13.30 LEADING AND THRIVING THROUGH A CRISIS YOU'RE UNPREPARED FOR

**David Downs**, Business leader, senior government official, board director and author

As a senior executive with 20 years' experience, David is well versed in leadership and the importance of knowing yourself. But his battle with cancer – and out of the blue, being given one year to live – was also a journey of self-discovery and a realisation

that the human mind can overcome what the human body has to endure.

David's presentation is full of optimism and inspiration, with thoughts on the impact of humour and positive psychology along the way – with detours into resilience and the power of control.

In this inspirational presentation, David will show you how you can overcome the unexpected and the uncertain with courage and determination.

- Leadership in crisis: take initiative and developing appropriate strategies
- Reframing your thinking to adapt to the new reality
- Effective communication is key, especially in times of rapid change
- Becoming an expert decision maker, even when faced with risk
- Maintaining positivity, optimism and patience in the face of a crisis

## 14.45 Afternoon Tea

"EXCELLENT DAY – LOTS OF NEW KNOWLEDGE TO TAKE BACK AND PUT INTO PRACTICE. WELL ORGANISED. EXCELLENT FOOD AND ENVIRONMENT. GREAT DAY."
